INTEROFFICE CORRESPONDENCE

DATE: October 13, 1992

TO: O. Erlich, Environmental Restoration & Technology, Bldg. 080, X8538

FROM: ^{CDR}
C. D. Reno, Ecology & National Environmental Policy Act Division, Bldg. 080, X8620SUBJECT: APPROVAL TO CONDUCT TREATABILITY STUDY SAMPLING IN FLOODPLAINS/
WETLANDS - CDR-0319-92

The statement of findings required by 10 CFR 1022 for work to be carried out in a floodplain/wetlands was published in the *Federal Register* on Friday, October 2, 1992. Publication of the statement completes the approval process for that part of the Site-Wide Treatability Study that is located in a floodplain/wetland, and you are free to proceed with that work 15 days after the publication date, or starting on October 17, 1992. NEPA review for the work not in a floodplain/wetlands was completed with issuance of the categorical exclusion on August 4, 1992.

If you have any questions or need further information, please feel free to contact me.
